We have recently read the Application and the Office Action dated March 22, 2004 (Office Action) issued in the Application. As We understand it, claims 1-40, 54-56, 58, 60, 62, 64, 65, 67, 69, and 71-73 have been rejected by the Examiner in view of the article entitled *Microfluidic device for combinatorial fusion of liposomes and cells* by Annette Stromberg, Anders Karlsson, Frida Ryttsen, Maximilian Davidson, Daniel Chiu, and Owe Orwar, which was published on November 30, 2000 in *Analytical Chemistry* v. 73, no. 1, pages 126-130 (hereinafter "Article"). Of the above-listed authors of the Article, Owe Orwar, Annette Stromberg, Daniel Chiu, and Anders Karlsson are named as co-inventors of the Application.

Although Mattias Karlsson is not listed as an author of the Article, he conceived of or invented the subject matter disclosed in the Article. We hereby declare that the Article describes the ideas and work of and was derived solely from Owe Orwar, Mattias Karlsson, Daniel Chiu, Annette Stromberg, and Anders Karlsson. Owe Orwar, Mattias Karlsson, Daniel Chiu, Annette Stromberg, and Anders Karlsson are the five sole co-inventors of the Application. Maximilian Davidson and Frida Ryttsen merely carried out experiments at the direction of Owe Orwar, Mattias Karlsson, Daniel Chiu, Annette Stromberg, and Anders Karlsson. We further declare that co-authors Maximilian Davidson and Frida Ryttsen are not co-inventors of the Application.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title XVIII of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
